

【Shenzhen】 Japanese Zen Spa Enzyme bath for slimming, detoxifying and destressing!

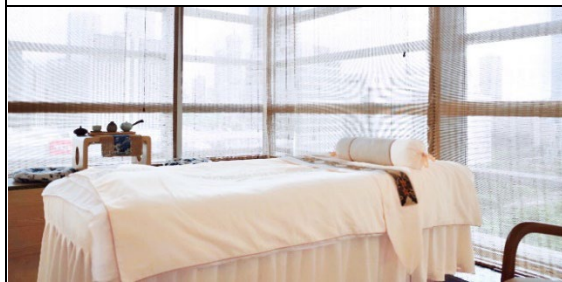

[Photo courtesy of Boss H Beauty]

You don't have to fly to Japan for a Japanese spa; just get a ride to Shenzhen. BOSS H Beauty, a skincare salon managed by doctorate holders from Southern Medical University and renowned plastic surgeons, offers skincare treatments using Japanese beauty technology to deliver a one-stop experience from facial care to body treatment at its four branches in Shenzhen.

The Japanese tearoom setting of the beauty salon featuring white décor with light wood creates a subtle Japanese Zen ambience. Furnished with tatami flooring, short-legged tables, paper doors and lighting in Japanese style, the interior embodies the Japanese aesthetic of simplicity which would make you feel relaxed even before the spa journey starts!

The signature Japanese enzyme bath is a unique spa for health and well-being. It detoxifies the body, improves blood circulation and reduces stress and fatigue, leveraging the heat of 60°C generated from the fermentation mixture of a hundred of plant-based enzymes with cypress sawdust and rice bran imported from Japan. By sweating and detoxing, you can conveniently achieve health protection, weight loss and beauty care in one go. It is just as simple as that! The salon also caters to your beauty needs with a variety of Japanese skincare and massage treatments, including Shiseido stone back massage and body contouring using natural Hinoki cypress from Nara.

Another good reason to visit the salon is the kimono experience that comes with the spa. Simply pick your favourite kimono from a wide range of aesthetic choices after spa, and take selfies against the exotic Japanese backdrop in your refreshed makeup look!

Japanese tea and snacks are also served in the salon. Giving full play to the exquisite Japanese vibes, the traditional tea ceremony is served to leave your body and mind calm and relaxed.
