

【Shenzhen】 Shenzhen Book Mall Longhua Branch
Most beautiful bookstore in town with 270° arc-shaped book wall!

Longhua Book City is the second largest bookstores in Shenzhen after Central Book City. With a total floor area of about 46,000 square metres, Longhua Book City features 700,000 fine books of approximately 200,000 types. And there are about 400 reading seats. As an “aesthetic book city” of the latest generation, it combines aesthetics, ecology and intelligence with powerful functions.

The unique “octahedron” facade implies “knowledge and information from various sides”. Multi-angle metal sunshades are used to resemble an open book. Ingenious and refreshing design is felt both outside and inside.

The 270° arc-shaped book wall and the super large floor-to-ceiling glass offer a breathtaking view. The stairs leading to upper floors are like a tunnel through the ocean of books. This book wall is also a super-popular photo hotspot for hipsters. Don't forget to take some great photos there!

Apart from the fabulous book wall and collections, the sense of art is also seen in every detail, from the display, the chairs to the bookcases. Every corner is filled with delicate aesthetic and fashionable designs. The book area is specially designed with arches to give a strong retro flavour. A search for your books would be like a poetic travel through time and space. There are also exhibitions with different themes from time to time, including art, cinematography, and old photos etc. Don't miss them!

If you want to take a break, go to GE BAKE on the 4th floor. The restaurant features a refreshing European design in white. The concise settings are cosy. The soufflé pancake is the signature dish. Chat with your friends over some fruit tea and baked goodies. Relax and recharge before continue browsing!
