

【Shenzhen Metro Line 4】Guanlan Art Tour

From nature to indoor, explore the culture and art of Guanlan!

Hong Kong is a stressful place to live in. Why not go on a short trip with your family and friends to relax and unwind? There are many unique and popular attractions along MTR Shenzhen Metro Line 4. This time we recommend an art and culture tour in Guanlan.

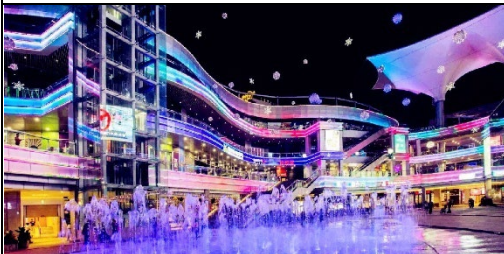

The flower field along the river in the Guanlan River Wetland Park will surely give you a feel of forest wonderland in the city. It has Shenzhen's largest canna field, which blooms in mid-April every year. Petal by petal, cluster by cluster, pink like haze, yellow like blaze, the graceful canna lilies bloom amidst green leaves. Flying birds and growing flowers are seen on the riverside under the warm morning sun. The mosaic of natural beauty makes it easy to take artistic floral photos. You can also have a panoramic view of the park from the Japanese fairy tale-inspired observation deck to enjoy a spectacular scenery. In winter, in-season silk floss trees are decorated with a vast piece of floral pink on both sides of the river. The pleasant birdsong and a sweet scent of flowers are interwoven with pedestrian laughters. This is just so dreamy and picturesque.
