

【Shenzhen】 Escalator to the Sky Embark on a space journey with the longest indoor escalator!

From its captivating exterior alone, Wanda Plaza is known to be extraordinary, characterised by its golden rectangular architecture that exudes sheer grandeur and splendour. Spanning a total area of 305,000 square metres across six floors, the shopping mall positions itself as a micro-tourism destination with science-fiction features. In addition to the staple offerings of dining, fashion, supermarket and cinemas, it is also well-known for the myriad activities available at stores that combine sports with entertainment.

Wanda Plaza stands out from its peers with the longest and highest indoor escalator in the world. With a length of 64 metres and a height of 30 metres, this spectacular ladder will send you straight from the atrium on the first floor to the sixth floor where you will be greeted by a dynamic sky ceiling with a gigantic dome as part of your space journey!

The two-minute ride on the escalator enables appreciation of its mesmerising cosmic colours, with the entire ascent to the celestial dome at the pinnacle resembling a fantasy-like intergalactic odyssey. This sci-fi ambience is what renders Wanda Plaza a trending check-in spot on social media.
