MTR Runs More Frequent Train Trips During Long Weekend for Dragon Boat Festival With Over 400 Extra Trips Added

To facilitate the travelling needs of local passengers and tourists during the long weekend for the Dragon Boat Festival, MTR Corporation will enhance the train service of six railway lines from this Saturday to next Monday (8 – 10 June 2024). The service enhancements cover different periods of the day with more than 400 train trips added for the three days in total. (Please refer to the annex for details of the train service enhancements.)

Island Line will run more frequent train trips during most periods this Saturday and during the afternoon to evening period on the following two days, with train frequency increased from around every 3 – 5 minutes to about every 2.5 – 4 minutes.

Train service of the South Island Line and Disneyland Resort Line will also be enhanced for the convenience of locals and tourists visiting Ocean Park and Hong Kong Disneyland. Train frequency of the South Island Line will be increased to around every 3 – 6 minutes for most periods of the day. For the Disneyland Resort Line, train trips will be increased from every 10 minutes to every 5 minutes for two periods of the day – from 9:00am to 9:30am and from 6:00pm to 7:00pm – for the travel convenience of passengers visiting and leaving the theme park.

For the East Rail Line, both southbound and northbound train frequencies between Lok Ma Chau and Admiralty stations will be increased during mornings on the three days, including trains between Lok Ma Chau and Sheung Shui stations running at around every 8.5 minutes as the peak frequency.

With more passengers expected to be travelling during the long weekend, the Corporation calls on passengers to reserve ample time for their journeys. There will be additional staff to assist passengers at Lo Wu and Lok Ma Chau stations on the East Rail Line and at Hong Kong West Kowloon Station of the High Speed Rail. The Corporation will closely monitor the operation of different railway lines and keep close contacts with relevant government departments to suitably adjust train service based on actual needs.

-End-

About MTR Corporation

To Keep Cities Moving, MTR makes encounters happen and rendezvous for a more connected tomorrow. As a recognised world-class operator of sustainable rail transport services, we are a leader in safety, reliability, customer service and efficiency.

MTR has extensive end-to-end railway expertise with 45 years of railway projects experience from design to planning and construction through to commissioning, maintenance and operations. Going beyond railway delivery and operation, MTR also creates and manages dynamic communities around its network through seamless integration of rail, commercial and property development.

With more than 50,000 dedicated staff*, MTR carries over 10 million passenger journeys worldwide every weekday in Hong Kong, Mainland China, Australia, the United Kingdom and Sweden. Together, we Go Smart and Go Beyond.
